

date **May 5, 2011**
to **Deans and Division Chairs**
from **Sasaki Associates**
project name **Babson College Campus Master Plan**
project # **06675.00**
subject **May 10th Deans and Division Chairs Meeting**

The Sasaki team is looking forward to participating in the Deans and Division Chairs meeting on May 10. Our interdisciplinary team of planners, architects, and landscape designers has been charged with preparing the campus master plan at Babson College that will provide a vision and ten-year road map for the College. We have spent the past few weeks on campus interviewing a broad cross section of campus members, and would like to use this time to learn more about the needs and considerations of the faculty.

AGENDA

Introducing the Master Plan Process

- Team Members
- Schedule
- Goals and Outcomes of the Master Plan Process

Sustainability in Learning and Working Environments

Exploring Innovative Learning and Work Spaces

- Learning Innovations
 - Entrepreneurial Spaces
 - Group Work Spaces
- Faculty and Staff Work Spaces
 - Collaborative Work Spaces
 - Social Spaces

Discussion Items

- How do you currently teach and work? How would you like to teach and work in the future? How well do current facilities meet those styles?
- What is the appetite for creating different types of learning and work spaces than currently exist on campus today?
